Q1: Who goes there?

Name	Sarah Dukett
County	Mendocino
Email (in case we have questions)	duketts@co.mendocino.ca.us

Q2: Regarding commercial cultivation of medical marijuana, my county:

Has allowed it with regulations. (Please provide a link to your local regulation if available.)
 We have a current cultivation ordinance adopted in 2012
 (https://www2.municode.com/library/ca/mendocino_county/codes/code_of_ordinances?nodeId=MECOCO_TIT9HESA_CH9.31MEMACURE).
 In November 2015, the Board created an ad hoc committee to revise the current ordinance in light of MMRSA. In March & April 2016, the ad hoc brought forward a series of revision recommendations. The County released a Medical Cannabis Activity Registration form in April to assess the level of interest of persons to apply for local permits and identify operations that were in good standing prior to January 1, 2016. It is anticipated that a draft ordinance will be brought forward this year and go through the regulatory process with adoption and program launch in the fall or winter (depending on various circumstances).

Q3: Regarding medical marijuana dispensaries, my county:

Has not addressed them.

Q4: Regarding personal grows, my county:

CSAC Medical Marijuana Survey

Q8: Is your county allowing other industries/uses related to medical marijuana activities, such as storage, distribution, or testing facilities such as laboratories?

Yes. (Please tell us what types and what your requirements are.)

Yes. We currently do not have an ordinance regarding the other licenses types in MMRSA. The Board of Supervisors has given direction that they wish to allow other industries consistent with MMRSA. The County is interested in transportation, processing, manufacturing, testing/laboratories and distribution.

Q9: Is your county allowing medical marijuana research activities?

Yes.

Q10: Has your county studied the current and potential economic impacts of the commercial medical marijuana industry?

Yes.

Q11: As far as you know, is the marijuana industry having an effect on industrial and commercial space in your county, for instance leading to higher rent and pushing out other industries?

I think so.

Q12: Who enforces the county medical marijuana regulations?

Other (please specify).

The current cultivation ordinance is enforced by the Sheriff and will transition to the Agricultural Commissioner by 2018 under the ordinance revision. Various departments will play a role in enforcement as part of the ordinance revision.

Q13: Will your county vote on a medical marijuana-related ballot measure this year?

That's not clear at this time.

Q8: Is your county allowing other industries/uses related to medical marijuana activities, such as storage, distribution, or testing facilities such as laboratories?

Yes. (Please tell us what types and what your requirements are.)

We allow storage and distribution under our Commercial Medical Marijuana Land Use Ordinance: "55.4.8.6 Wholesale Distribution Facilities for commercial cannabis for medical use shall be a conditionally permitted use in zoning districts C-2, C-3, MB, ML, U (where developed as industrial use), and MH, subject to a Special Permit and the conditions and limitations set forth in this Section" Also, we will soon be allowing MMJ testing facilities with the upcoming repeal of our dispensary ban: "55.3.15 Medical Marijuana Research and Testing Laboratories Research and testing laboratories at which no cultivation, processing, or distribution of medical marijuana occurs shall be allowed in any zone in which medical laboratories and medical testing facilities are permitted. Medical marijuana research and testing laboratories shall be subject to all the regulations and standards applicable to medical laboratories and medical testing facilities in the Humboldt County Code and the MMRSA."

Q9: Is your county allowing medical marijuana research activities?

Yes.

Q10: Has your county studied the current and potential economic impacts of the commercial medical marijuana industry?

Yes.

Q11: As far as you know, is the marijuana industry having an effect on industrial and commercial space in your county, for instance leading to higher rent and pushing out other industries?

Yes, it is.

Q12: Who enforces the county medical marijuana regulations?

Sheriff., Agricultural commissioner., Planning., Other (please specify).

Regarding the tax question in No. 5: It's going to voters in November. Graduated tax on cultivation, depending on size and type (indoor, outdoor, mixed light. \$1/sq foot for smallest outdoor grows (0-3,000) sq foot, and gradually increasing up to \$12/sq foot for the largest allowed indoor grows (10,000 sq ft). Largest outdoor grows (1 acres, or 43,650 sq ft) would be taxed at just under \$5. Based on a percentage of yield, our calculations have the largest cultivators paying roughly 8%, and the smallest around 1%. We can share our (probably unnecessarily complicated) spreadsheet if you'd like. We are really interested in what other counties' tax rates are or are going to be.

Q13: Will your county vote on a medical marijuana-related ballot measure this year?

Yes, in November.
