The presence of a quorum was noted.

2. **APPROVAL OF MINUTES**
The minutes of May 18, 2017 were approved as previously mailed.

3. **PROPOSITION 57 IMPLEMENTATION**
Scott Kemer, Secretary of the CA Department of Corrections and Rehabilitation (CDCR), presented an update on the implementation of Proposition 57, a ballot measure to enhance public safety, reduce recidivism and prevent federal courts from indiscriminately releasing inmates. He noted that CDCR is hoping to have the new regulations in place within the next few months. Details of those regulations were included in the briefing materials. Secretary Kemer also noted that there are currently 130,000 offenders in the state prison system and that number increases by 1% each year. All out-of-state inmates will be returned to California by the end of this year, totaling about 4900. CSAC has worked closely with CDCR and the Governor’s Office during the implementation process.

4. **CORPORATE PARTNER REMARKS**
Jeff Smith, President of Taborda Solutions, addressed the Board of Directors regarding services his company offers to counties. Taborda was founded in 2006 and has grown into a $44m company, providing a full-range of technology products and services. Mr. Smith indicated that they are now focused on helping local governments engage with constituents.

Staff distributed the new Corporate Partner Guide that includes 72 CSAC corporate members and descriptions of their products and services.

5. **IN-HOME SUPPORTIVE SERVICES (IHSS) MOE**
The Governor signed SB 90, which implements the Governor’s May Revision proposal to mitigate the fiscal impact of the elimination of the In Home Supportive Services (IHSS) Maintenance of Effort (MOE) related to the Coordinated Care Initiative (CCI). The proposal for a new county IHSS MOE will result in significantly reduced overall county contribution for IHSS costs compared to the January budget proposal.

CSAC formed an IHSS MOE work group to ensure input from CAOs and technical experts during the development of the new county IHSS MOE. The recommended approach weights the MOE Base and Annual Hours Growth equally and combines them into an overall methodology. Based on combining 50% from each, a county’s overall percent to total is calculated and then applied to determine the county’s proportionate share of the cost shift and offsetting General Fund revenue. This balances out the different factors that impact a county’s share of the IHSS cost increase. It provides a link to a county’s current MOE amount and incorporates differences among wages and the growth in hours in determining how much of the cost shift each county should receive.

The overall MOE is the sum of four smaller MOE amounts – services, IHSS county administration, Public Authority administration, and Case Management, Information and Payrolling System (CMIPS). The recommended methodology is used to determine the services component of the cost shift and offsetting revenue, which accounts for approximately 95% of the overall amount. It is then combined with the other MOE amounts to calculate the total cost shift and proportionate share for each county. The new County MOE amount that counties receive is the amount after the cost shift has been added and the General Fund has been applied. All other offsetting revenue, with the exception of revenue used for caseload growth from prior years is distributed in proportion to a county’s share of the overall cost shift.

Statewide, the increased county costs remain manageable in 2017-18 and 2018-19, but are unsustainable in subsequent years. In an effort to address several outlier counties, the work group established a hold harmless provision to ensure that no county has increased costs above a specific percent.
The IHSS MOE methodology recommendation was presented to the Executive Committee on August 23, which unanimously recommended that the Board of Directors approve the methodology subject to review by the CA Association of County Executives (CACE). The CACE has since approved the recommended methodology.

**Motion and second to approve the IHSS methodology, consistent with the Executive Committee recommendation. Motion carried unanimously.**

Staff announced that Supervisor Ken Yeager will be chairing an IHSS work group to look into potential reforms, negotiate future years of IHSS, and help ensure long-term sustainability of the program.

6. **CSAC FINANCE CORPORATION UPDATE**

Supervisor Leonard Moty, President of the CSAC Finance Corporation, announced that the semi-annual Finance Corp. Board meeting will be held next week and the Board will also meet jointly with the CSAC Executive Committee next month. There is a new Business Development Application online to vet potential business ideas. The form can be found on the CSAC Finance Corporation website and CSAC Board members were encouraged to submit ideas for viable new programs.

James Hamill, Administrator of the CA Statewide Communities Development Authority (CSCDA) provided an update on the Property Assessed Clean Energy (PACE) program. CSCDA currently has five PACE provider partners and has been working closely with CSAC to help support lobbying efforts for the program.

7. **LEGISLATIVE UPDATE**

Staff announced that Assembly Member Brian Dahle has been named the new Assembly Republican leader, replacing Chad Mayes. AB 1250 remains a top priority for CSAC. This bill would restrict counties' ability to deliver critical services and carry out basic county administrative functions. It is sponsored by SEIU and AFSCME. CSAC is strongly opposed to this bill, which is currently being held in Senate Rules Committee subject to additional amendments. SB 649 is another bill that CSAC strongly opposes. The bill would eliminate local governments' ability to negotiate agreements with telecom companies, as well as the authority to regulate size, appearance, location and quantity of cellular infrastructure. The Legislature and Governor are still in negotiations on a package of bills to address affordable housing. CSAC has developed a webpage of resources to help facilitate county implementation of SB 1 and compliance with its accountability provisions. Additional details were contained in the briefing materials.

CSAC and CSAC Finance Corporation staff have been working together to explore ways that CSAC might assist counties with the cannabis regulatory compliance, banking and cash collection issues that will result from the legalization of adult cannabis use beginning in January 2018. The solution is the California Cannabis Authority (CCA), a joint powers authority created by contract between counties with cannabis regulatory or taxing authority. The CCA will initially focus on addressing the complex problems surrounding the substantial increase in cash payments to state and local governments expected from cannabis businesses. It can reduce the cash-management burden on state and local governments by reducing the due-diligence burden on banks, by providing them much of the information required to comply with enhanced due diligence. This requires big data and the means to analyze that data to support regulatory, tax and law enforcement activities. CCA will collect and provide this data and analytical capacity and function. CSAC has convened a small working group of supervisors, treasurer-tax collectors and staff to help guide this effort. In addition, CSAC is working with the Treasurer's Cannabis Working Group to help inform our efforts.

8. **CA ASSOCIATION OF COUNTY EXECUTIVES (CACE) DISTINGUISHED SERVICE AWARD**

Helen Robbins-Meyer, President of CACE, announced that nominees are currently being sought for the third annual CAO/CEO Distinguished Service award. This award is given to those CAOs/CEOs who have made a difference for the professional administration of county governments. Deadline for submitting nominees is October 13.
9. **CSAC CHALLENGE AWARDS**
Staff announced that judging took place earlier this week on the 2017 CSAC Challenge Awards. A 15-panel judge reviewed 288 entries and chose 12 counties as recipients. CSAC will create videos on the winning programs.

10. **OPERATIONS AND MEMBER SERVICES UPDATE**
Staff announced that registration is open for the 2017 CSAC annual meeting being held the last week of November in Sacramento. CSAC will be holding a regional meeting in Los Angeles on November 8-9. Details will be sent in the next couple of weeks. The CSAC Institute continues to be successful and will be opening a new satellite campus in San Bernardino County. The CA Counties Foundation, in partnership with Pew Charitable Trusts, has secured a $500,000 grant from the California Health Care Foundation to provide longer-term funding for the Results First program which is centered on evidence-based and cost-effective criminal justice programming at the local level.

11. **OTHER ITEMS**
The briefing materials contained reports on the CSAC Litigation Coordination Program, the Institute for Local Government (ILG), a CSAC Institute class schedule, and a CSAC Financial Statement.

Supervisor Gore announced that the California Economic Summit will be held in San Diego on Nov. 2-3, and encouraged all Board members to attend.

Mariposa County Supervisor Marshall Long thanked the counties who offered assistance during the recent Detwiler fire.

President Carson adjourned the meeting in reflection of those dealing with tragedies of current fires and storms.
Under the leadership of its President Roy Charles Brooks, the National Association of Counties (NACo) will raise awareness of the critical role counties play in breaking the cycle of poverty. NACo will also provide tools to strengthen efforts to address this issue as we help to build healthy, vibrant and safe counties across the United States.

While counties put people first, poverty can push them to the end of the line. This is particularly true for our nation’s children, who are impacted by poverty more than any other age group. In fact, Adverse Childhood Experiences, like those stemming from poverty, can impact infants for the rest of their lives.

As the ultimate safety net, county investments and leadership in early childhood development will lower future costs in county health, child welfare, safety and justice, and other systems. Counties also forge partnerships with the public, private and non-profit sectors at the federal, state and local levels to remove barriers, build opportunities and address the many faces of poverty in America.

COUNTIES SERVE AS THE ULTIMATE SAFETY NET FOR OUR MOST VULNERABLE FAMILIES AND CHILDREN

• In 2015, 13.5 percent of all Americans fell under the federal poverty line, with the poverty rate for children under 18 exceeding all other age groups. In fact, 19.7 percent of children were living in poverty.

• Counties are investing $58 billion annually in federal, state and local funds in human services.

• Research shows that for every $1 invested in early childhood education, $7 is returned to society through reduced teen pregnancies, higher graduation rates, improved school performance and reduced incarceration rates.

• From early childhood development to workforce development, from homelessness to health, counties are providing services that break cycles of poverty and help people thrive.

COUNTIES ARE WORKING TO CREATE PATHWAYS OUT OF POVERTY

• Focusing on skill and opportunity gaps; jobs vs. wealth creation.

• Addressing consequences of poverty and the need for “two-generation” approaches.

• Providing services to break the cycle of poverty, from early childhood development and nutrition assistance programs, to programs which help families become more stable and secure.
COUNTIES CANNOT ADDRESS THE CRISIS OF POVERTY WITHOUT FEDERAL, STATE AND LOCAL SUPPORT AND CROSS-SECTOR COLLABORATION

• Working across sectors requires dedicated resources and sustainable funding.
• Consistent and continued support for federal programs like the Social Services Block Grant, Community Services Block Grant and Community Development Block Grant helps counties serve those most in need and aid individuals and families in breaking the cycle of poverty.

ENSURING ALL CHILDREN THRIVE
Childhood experiences, both positive and negative, have a tremendous impact on the future health, well-being and success of young people. Research on Adverse Childhood Experiences illustrates that early trauma can lead to a life of poverty, violence, health issues and lack of the developmental skills necessary for success in school and in life.

Children and their families need to live in safe, stable and nurturing communities with access to healthcare, quality childcare and family support. By providing the services and support that families need, all children can break the cycle of poverty and reach their full potential.

THE BUILDING BLOCKS OF SUCCESSFUL EARLY CHILDHOOD PROGRAMS
Working together with our federal, state and local public, non-profit and private sector partners, counties play a key role in providing the support that children need to be prepared for school and life. Over the course of the next year, NACo will build awareness and provide tools to help counties create thriving communities which support all families. Along with our partners at the Center for the Study of Social Policy and the National League of Cities, we will focus in four key areas to impact significantly the investment in children and break the cycle of poverty:

BUILDING BLOCK #1: Community Leadership, Commitment and Public Will to Make Early Childhood a Priority
BUILDING BLOCK #2: Quality Services that Work for All Young Children and Families
BUILDING BLOCK #3: Neighborhoods Where Families Can Thrive
BUILDING BLOCK #4: Policies that Support and are Responsive to Families

PUTTING THE PIECES TOGETHER: The Infrastructure of an Early Learning Community
• Effective leadership
• Use of data to drive change
• Sustainable financial backing
• Supports for service providers

   As California struggles to understand and combat ideologically motivated violence, the
   Governor’s Office of Emergency Services (Cal OES) is coordinating a statewide effort
   aimed at supporting and enriching community resilience against this type of violence. In
   2017, Cal OES is working to assess what state, federal, and private partners are already
   doing to support communities in their efforts to become more resilient against ideologically
   motivated violence. And beginning in fall of 2018, Cal OES will work to highlight and
   connect statewide resources to communities in order to enhance, encourage, and support
   resilience.

RESOLUTION OF THE BOARD OF DIRECTORS

County Supervisors Association of California
doing business as the
California State Association of Counties

WHEREAS, the Board of Directors of the California State Association of Counties (CSAC) employs an executive director and other staff to perform its day-to-day business; and

WHEREAS, the Board desires the business of the association to be transacted in an efficient and appropriate manner; and

WHEREAS, from time to time the Executive Director and Secretary of the Corporation must sign or approve documents on behalf of the Board;

NOW THEREFORE BE IT RESOLVED, that the Board of Directors of CSAC hereby authorizes the Executive Director and Secretary of the Corporation, and his designees on staff, to execute and approve bank and other documents as authorized by the Board of Directors or the Executive Committee.

FURTHER BE IT RESOLVED, that this resolution shall remain in effect until the 2018 annual meeting of CSAC, when a similar resolution will be executed by the newly constituted Board of Directors.

Duly adopted this 30th day of November, 2017.

RE: CSAC Finance Corporation Update

CSAC Finance Corporation Business Programs

California Statewide Communities Development Authority (CSCDA)
We continue to work closely with CSCDA on the Property Assessed Clean Energy (PACE) program and helping to educate counties on the oversight and consumer protections that CSCDA requires of their PACE providers. CSCDA continues to assist California counties and residents by being a provider of conduit bond funding and refunding for public benefit projects. In FY 16-17, CSCDA saw the largest volume of housing bonds in their 29-year history. We have also begun to see an uptick in infrastructure financing.

U.S. Communities
Our U.S. Communities cooperative purchasing program now has over 40 suppliers on contract. The newest contract, launched this month, is a Janitorial Supplies contracts with SupplyWorks. Within California Counties, the following contracts seem to be underutilized, meaning that there are immense opportunities for your county to save being left on the table: Acro, Premier, Insight, Trane, Advance Auto Parts, Home Depot, and Amazon.

CalTRUST
CalTRUST has undergone a suite of transitions this year including a new Investment Manager (BlackRock), Fund Accounting (NorthStar/Gemini), and Custodian (US Bank). These transitions are now complete and CalTRUST is ready to resume growth. Throughout the transitions, CalTRUST assets held stable at around $2.8 Billion. California counties currently underutilize CalTRUST. CalTRUST fund offerings include government, money market, short-term and medium-term funds.

Nationwide
Nationwide continues to flourish and provide state-of-the-art retirement services to California counties. There are over $3 billion in assets in Nationwide’s California counties and many opportunities to reach even more county employees on the horizon. In 29 counties, Nationwide is helping over 66,000 employees save for retirement. They continue to be a hands-on partner, participating as a speaker in the most recent CSAC Regional Meeting.
**Coast2Coast**
The Coast2Coast prescription drug discount card continues to expand in California, currently being utilized by over 35 counties. This no-cost solution actually returns revenue to counties while providing a great service in providing prescription discounts to residents.

For more information on the CSAC Finance Corporation programs, please contact Alan Fernandes at (916) 650-8120 or alan@csacfc.org or Laura Labanieh at (916) 650-8186 or laura@csacfc.org.

**Corporate Partnership Program**
The Corporate Partnership Program began Fiscal 2017-18 with 72 partners, including 30 Premier, 8 Executive, and 34 Associate partners. With some attrition, we have continued to grow and are now at 73 partners and over $165,000 in new business, and we anticipate at least two others joining before the New Year. Please note the most updated partner roster included in the pages following this report.

**Regional Meetings**
We just completed the Southern Counties Regional Meeting, November 8-9 in LA County. It was another great Regional Meeting with over 60 county leaders and corporate partners who participated in an excellent agenda about economic development and bioscience. We were pleased to hear from one of our CSAC Finance Corporation Business Partners, Ben Ayers, Senior Economist from Nationwide. Ben gave an excellent review of the current national and state housing markets and their implications on our local economy.

**Corporate Partner Guide**
We are proud to make available to you the new 2017-18 Corporate Partner Guide. This guide identifies each of our Finance Corporation business partners, and our annual corporate partners by their area of expertise and value to each County. We have distributed this guide to your County Administrator and also plan to distribute it to your General Services Directors and procurement departments.

**Annual Meeting Expo**
Thank you for attending and interacting with our vendors at this year’s annual meeting expo. Your involvement is paramount to our continued success. We had over 80 vendors this year and are looking forward to next year in San Diego County.

Please see the Premiere Partner Annual Roster attached to this report. For more information on the Corporate Partnership Program, please contact Jim Manker at (916) 650-8107 or jim@csacfc.org.
New Business Development

211 California
211 systems serve county residents by providing trusted connectivity to community, health, and social services. In California, there are still 23 counties that do not have an active 211 service. Supervisor Greg Cox will be making 211 connectivity an active platform and focus during his upcoming tenure as President of the National Association of Counties (NACo). The 211 California organization has approached the CSAC Finance Corporation, through Supervisor Cox, as a resource to help expand the network. The CSAC Finance Corporation is actively working with the organization and exploring a partnership whereby the CSAC Finance Corporation could assist 211 California in becoming a formal incorporation organization and assist in expanding the 211 network to those counties currently without.

Cannabis Compliance
The California Cannabis Authority is a Joint Powers Authority created by contract between counties with cannabis regulatory or taxing authority. This is a project of the CSAC Finance Corporation and CSAC. The purpose of the organization is to develop and manage a statewide data platform that will gather, collect, and analyze information from a myriad of data sources into one resource, to help local governments ensure for cannabis regulatory compliance and also provide necessary information to financial institutions that wish to work with the cannabis industry.

Payment Processing
Smart Easy Pay (SEP) is project of the CSAC Finance Corporation that is focused on becoming the taxpayers' most efficient and cost effective way to pay government. Specifically, the purpose of SEP is to improve public service to the direct benefit of taxpayers. Specifically, SEP is focused on streamlining and improving financial transactions between taxpayers and county government.

Business Development Application
We are constantly looking for new and innovative programs to join our vast array of services we provide California counties. Our programs have grown dramatically since the first pooled bond issue for capital construction projects in 1986 and now includes a variety of finance, purchasing, human resource, and other cost saving programs to assist California counties, and other public agencies.

If you have a new program idea for the CSAC Finance Corporation to explore, please visit our website at: http://csacfc.org/business-development-application/

To: CSAC Board of Directors

From: Graham Knaus, Deputy Executive Director of Operations and Member Services
      David Liebler, Director of Public Affairs & Member Services
      Kelli Oropeza, Chief of Financial Operations

Re: CSAC Operations and Member Services Update

This memorandum highlights key activities and initiatives occurring within CSAC operations and member services as well as key achievements by the team over this past year.

Member Services and Communications
Following is a brief summary of CSAC Member Services and Communications activities and successes during the past three months. Significant emphasis continues to be placed on a combination of earned and social media to meet a number of our communications goals for the year.

Earned Media
As the legislative session came to a close, the CSAC Communications Unit continued to play an integral role in complementing our advocacy efforts on key legislative issues. We have been successful in placing several op-ed pieces in various newspapers on issues important to counties. Often this involved close collaboration with other stakeholders. The Sacramento Bee ran a piece in opposition to SB 649, the “small cell bill,” from Matt Cate and other local government representatives. The Bee also ran an opinion piece co-authored by CSAC 1st Vice President Leticia Perez and Moira Kenney from the California First Five Commission opposing AB 1250, the county contracting bill. In both cases, CSAC’s Communications team was instrumental in crafting the messages and getting the items placed.

Social Media
CSAC continues to use social media, especially Twitter, as a major communications tool, reaching hundreds of thousands of viewers each month. During the recent Northern California wildfires, CSAC tweeted extensively with updates and county information, reaching more than 120,000 people in the first week. Facebook and Instagram continue to be increasingly popular social media venues utilized by CSAC. Our following on Instagram grows daily the more that we utilize this outlet. A wide variety of CSAC programs, meetings and events are regularly promoted, as are positive stories about our California Counties and supervisors, as well key legislation and other issues of importance to our members.
**Blogs**
CSAC continues to publish at least one blog every week. During the past three months, our blog touched on a variety of issues, including the devastating wildfires, the CSAC Annual Meeting, public engagement and legislative priorities. Guest authors included Supervisors Keith Carson (Alameda), James Gore (Sonoma), Bruce McPherson (Santa Cruz), and former Humboldt County Administrative Officer Phil Smith-Hanes. We also continue to cross promote our blogs through social media and the CSAC Bulletin.

**Videos**
CSAC continues to produce videos on a wide variety of issues. Two parts of CSAC’s three-part “California Counties and Cannabis” series have been released, focusing on regulation and banking/taxation. A third video on public health and public safety is in the works. CSAC also produced three “Spotlight on Advocacy Videos,” taking a look at some of the Association’s top legislative priorities in 2017: SB 1, AB 1250 and IHSS. Other videos produced by the CSAC team include press conferences and regional meetings.

**Challenge Awards/County Best Practices**
CSAC staff is on the road presenting Challenge Awards at Boards of Supervisors meetings. Over a seven-week period, staff will present at 13 board meetings, ranging from Humboldt to San Bernardino, Nevada to Sonoma Counties. Communications staff is also on the road to begin filming the Challenge Award-winning programs. These videos will be released starting in January and provide a great opportunity to highlight innovation occurring in a number of counties and facilitate the sharing of best practices among counties.

**Regional Meetings**
CSAC continues to expand regional meetings to provide opportunities to bring issues of interest directly to multiple regions in the state.

CSAC policy-based regional meetings enable focused discussion on hot topic issues of interest to counties in multiple regions in the state, provide a forum to network with colleagues, and include select CSAC Corporate Partners. These meetings include presentations and discussions from your CSAC Officers, CSAC Executive Team, Legislative Team and others, and other County Officials. In 2017, CSAC held three regional meetings in Kern County (water policy and infrastructure), Humboldt County (cannabis policy), and, most recently, in Los Angeles County (economic development).

The regional meeting in Los Angeles County was hosted by Supervisor Mark Ridley-Thomas, and focused on the economy, economic development and the emergence of bioscience as an economic engine. The meeting included 60 county leaders from 13 counties, the CSAC Officers and executive team, key policy experts from the Legislative Team and community, and corporate partners. These meetings underscore the strong and seamless partnership between CSAC’s Legislative
Team, Communications Team, the CSAC Finance Corporation, and our Corporate Partners.

CSAC also continues to move forward in offering regional meetings for county public information officers. Meetings in Southern and North California this summer/fall attracted more than 50 PIOs who came together to discuss regional cooperation and mutual aid. A follow-up meeting is slated to be held during the CSAC Annual Meeting, and efforts are under way to provide even more meetings in 2018.

Working with Institute for Local Government
CSAC communications works closely with the Institute for Local Government to help promote their activities through the Association blog, CSAC Bulletin and social media. CSAC also produced a video on behalf of the Institute for Local Government spotlighting a Beacon Program award-winning program. Local government officials in Monterey and Santa Cruz Counties, including Supervisors McPherson and Alejo, are highlighted in the video that was shown at the Beacon Spotlight Awards Ceremony in September.

California Counties Foundation
The California Counties Foundation (Foundation) is the non-profit foundation of CSAC that houses the CSAC Institute, the partnership with the Pew-MacArthur Results First Initiative, and manages charitable contributions and grants to improve educational opportunities for county supervisors, county administrative officers, and senior staff.

CSAC Institute
The CSAC Institute continues its remarkably successful evolution to meet county professional development needs through policy-based and leadership-focused courses and activities. The CSAC Institute offers courses at the main campus in Sacramento, and satellites located in Contra Costa County, Merced County, San Bernardino County, and, beginning January 2018, in Shasta County.

To continue to provide excellent and relevant curriculum at a reasonable price, and to remain at the forefront of filling county professional and leadership development needs, a strategic planning session was held in October to begin mapping out the Institute’s course for the next few years. The session included a number of the original architects of the Institute from back in 2008 and will result in recommendations for the full Foundation Board to consider including developing new educational opportunities to maximize the success of current and future county leaders.

Results First
The CSAC/Results First Partnership began in 2015 and is centered on evidence-based and cost-effective criminal justice programming at the local level. The goal of the CSAC/Results First partnership is to develop county capacity to make evidence-based policy decisions that produce the best outcomes for residents with the
highest rate of return for taxpayers. The effort includes the counties of Kern, Santa Barbara, Fresno, Santa Cruz, Santa Clara, Ventura, Nevada, and Solano counties.

The recently awarded California Health Care Foundation grant provides key new resources to expand the direct technical and data assistance that CSAC can provide to Results First counties. It also enables further expansion into new counties.

**Fiscal Operations**
The 2016-17 year-end financials underscore CSAC’s continued solid fiscal performance. CSAC created a Capital Improvement Program Fund to best maintain our aging assets, particularly our 100-year old building while continuing to manage expenses based on organizational priorities and within available revenues.

The Audited Financial Statements (Statements) include an Unmodified Opinion with no audit adjustments or findings for CSAC. Last year, the Statements were consolidated with the CSAC Finance Corporation due to CSAC’s controlling interest in it. This year, the Statements are also consolidated with the California Counties Foundation, CSAC’s 501 (c) (3) operation due to CSAC’s controlling interest in the reconstituted Foundation Board. As a result, the Statements have become more complicated, requiring additional time for our external auditors to complete them.

Due to the additional timing required for the consolation, the audit has been conditionally approved by the CSAC Audit Committee and Executive Committee pending any potential material changes due to the consolidation. We have been informed by our external auditors that no material changes are anticipated in the final Statements. We will send the final Statements to the full Board as soon as available.
Key Achievements of the Operations and Member Services Team include:

1) Further strides towards long-term financial security and fiscal responsibility. Building off of last year’s elimination of all debt, sound financial management has moved to create a Capital Improvement Program Fund (Fund) as part of managing CSAC assets, including our 100-year old building. CSAC began 2017-18 with a $500k investment in the Fund to position for potentially costly building maintenance and repairs such as replacement of the roof, original boiler, and other large scale projects and building improvements. The estimated cost to replace the boiler likely exceeds $1 million requiring delicate handling to extend its life along with sound financial planning for the future. Progress has occurred while maintaining the Operating Reserve above its 6-month target.

2) Explosion of CSAC’s communication presence, particularly in the growth of our video platform to celebrate county services and innovation, and serve as a new advocacy tool for critical priorities. Our social media reach continues to expand as our feed has become a go-to resource and advocacy tool for counties, the Legislature, and media.

3) Strengthening the Corporate Partnership Program resulting in $334k in net revenue to support Board priorities. The program also continues to leverage relationships and networks with the Finance Corporation, generating more revenue opportunities and benefits to counties. Over the last three years, the Program has created stable net revenue to become an essential component of CSAC’s revenue base. The Program has also sponsored multiple events to foster county dialogue such as the CSAC Regional Meetings and the Premier Partner Forum with the Executive Committee. As a next step in leveraging corporate relationships and opportunities, the Program transitioned to the Finance Corporation in October. This move reflects the growing integration between CSAC and the Finance Corporation and allows new synergies in the path of corporate partner to potential revenue sharing partner.

4) The California Counties Foundation has thrived over this past year with a $500k new grant to support the Results First Initiative with Pew-MacArthur, with the opening of new CSAC Institute satellite campuses, and the beginning of an Outcomes-Based Contracting Initiative with counties, non-profits, and foundations. This growth speaks to the focus on direct services to counties that provide the tools to improve services to their communities.

Update on Activities  
November 2017

The Institute for Local Government (ILG) is the research and education affiliate of the California State Association of Counties, the League of California Cities and the California Special Districts Association.

ILG promotes good government at the local level with practical, impartial and easy-to-use resources for California communities. Our resources on ethics and transparency, local government basics, public engagement, sustainable communities and collaboration and partnerships are available at www.ca-ilg.org.

Highlights

- ILG presents at the Annual Meeting.
- ILG works with CSAC and the League on their Joint Homelessness Taskforce.
- ILG honors Alpine County with a full Beacon Award and Alameda, Monterey, Sacramento, San Mateo, Santa Cruz, Ventura and Yolo counties with Spotlight Awards.
- ILG hosts free webinars for CSAC members.

CSAC Annual Meeting

ILG is excited to work with CSAC staff on a session for the Annual Meeting “Solutions & Tools to Address the Growing Crisis of Homelessness.” Additionally, ILG will have a table at the Expo - come by to learn more about our programs and initiatives. We look forward to seeing you there!

Joint CSAC/League Homelessness Taskforce

The Joint CSAC/League Homelessness Taskforce held their final meeting on October 10th. The Taskforce received an update on recent affordable housing legislation; discussed components of the final report including programmatic and funding options, homelessness plans, partnerships and community engagement and best practices; and brainstormed possible training opportunities on these topics. Staff continues to work with the CSAC and the League to complete the final report, create a web presence and plan
conference sessions and/or trainings on this topic. The report should be finalized in late 2017.

Beacon Awards

ILG hosted a joint county/city Beacon Award Ceremony in September and recognized nearly 60 cities and counties with Beacon and Beacon Spotlight Awards for their achievements in saving energy, reducing greenhouse gas emissions and adopting policies and practices that make California communities more sustainable. Thank you to CSAC’s communications team for working with us to produce a video highlighting AMBAG, the Beacon Champion of the Year! That video can be found here: www.youtube.com/watch?v=JbB2qZ8rNno.

For the full list of 2017’s winners visit: www.ca-ilg.org/award-winners.

Effective Governance

ILG continues to work with Cal-ICMA consultants Frank Benest and Kevin Duggan on their “Survival Skills Project.” As part of this work, ILG has established a leadership and governance resource center for administrators and officials. Content is geared towards those looking for best practices documents on effectively governing, and instilling civility among councils and in the relationship between elected officials and the chief executive. The resource center can be accessed here: www.ca-ilg.org/leadership.

ILG Hosts Public Engagement Convening

Over 100 local and non-profit leaders and immigrant integration experts came together on September 6th to identify successes, challenges and specific actions they can take to support immigrant integration and engagement. City of Oakland Mayor Libby Schaaf offered welcoming remarks and emphasized the importance of partnering across the Bay Area to support California’s immigrant communities. New American Economy unveiled new economic data related to immigrant contributions throughout the region as well as a new mapping tool to view this data. Other expert speakers included Grantmakers Concerned with Immigrants and Refugees and Immigrant Legal Resource Center. The convening participants identified the following roles for local governments:

- Continue to build trust by engaging “beyond the usuals” including immigrant and refugee community members.
- Lead, convene and facilitate community conversations on legal processes including naturalization and Know Your Rights workshops.
- Fund immigrant integration services.
- Connect immigrant and refugee residents to relevant public sector agencies and services.

ILG has produced new resources to help your community engage immigrant residents - Language Access Checklists and Local Governments Engaging Immigrants: Strategies that Work. Read more in our CSAC blog here: www.counties.org/county-voice/ilg-supports-counties-engaging-diverse-communities. These resources and more can be found on our website at: www.ca-ilg.org/immigrant-engagement-and-integration.

New! In confronting organizational problems we often generalize what the issues are. Typically they come in two forms: People problems, and Communications problems. Neither of these is useful to understand how to improve the organizations that we work in. This class looks specifically at:

Nature and dimensions of leadership in effective organizations

Art & Practice of Organizational Leadership

This interactive course designed for both experienced and new senior county managers explores the practical applications of leadership in creating a high performing county organization—especially in the difficult environments counties operate. Participants engage in discussions of key practices in formal and informal leadership, particularly in achieving sustainable change; employee engagement and team-building strategies; leadership when you’re not in charge; and techniques for developing a vital workplace culture which supports organizational members.

Instructor: Dr. Frank Benest is former city manager of Palo Alto and a noted expert in organizational leadership and management.

Deployment and leadership of high performance teams

Building and Maintaining a Team Environment

Counties use teams as a method to get work done. It takes a certain organizational culture to support teams. This course examines the culture and attributes of high-performing teams in the public sector. Hands on simulations demonstrate team strategies. Strategies, tools and resources are shared along with team leadership practices, and how to transition to a team culture. Participants examine the group dynamics required for team success, define team responsibilities and accountability, how to evaluate team performance against mission, and the leadership practices to lead and sponsor teams.

Instructor: Dr. Jerry Estenson is Professor of Organizational Behavior at Sacramento State University.

Nothing is more fundamental than our ability to communicate

Communication with Purpose

NEW! In confronting organizational problems we often generalize what the issues are. Typically they come in two forms: People problems, and Communications problems. Neither of these is useful to understand how to improve the organizations that we work in. This class looks specifically at:

For registration and additional details please visit www.csacinstitute.org
“communications” with an intention of understanding and beginning to enhance our capacity and skill at communicating where we work. It focuses on mastering the fundamentals of interpersonal communication, performance management communication, listening for results and communicating under stress. There are a few things that distinguish humans from other ‘intelligent creatures’. None is more fundamental and essential than our ability to communicate.

Instructor: Larry Liberty, Ph.D. works with Fortune 500 companies and teaches in MBA programs across the globe.

Exactly what are California counties responsible to do?

County 101: Duties, Authorities and Responsibilities of Counties  157

Counties have very broad authorities and responsibilities. Federal state laws along with county-adopted policies and ordinances frame how each of the 58 counties implement those duties. With such broad responsibilities it is difficult for county officials and staff to be aware of all the duties and mandates across all departments. This class examines each county responsibility area and, at a policy level, highlights what is mandated, required and/or discretionary, and the roles and authority counties have for that service. It would also look at the history of counties in California.

Instructor: Bill Chiat is CSAC Institute Dean, former executive director of the California Association of Local Agency Formation Commissions and CEO of Napa County.

Overview of county budgeting and financial management

County Budgeting and Financial Planning  116

Counties have complex systems for budgeting and financial management. This course provides a comprehensive overview of the ins and outs of county budgeting and the budget process. Discussion includes a review of the County Budget Act, a year in the county budget cycle, key elements of a budget, and integration of strategic plans into the annual budget. Participants also examine county revenue sources, sales and property tax allocation, General Fund and special funds, creating and integrating department-recommended budgets, and public involvement in the budget process. The class explores key elements in longer-term county financial planning and management. Class is a must for everyone involved in the budget process.

Instructors: Patrick Blacklock is County Administrator of Yolo County, and Robert Bendorf is County Administrator of Yuba County.

Understand and interpret county financial reports

County Financial Reporting and Budgeting for Nonfinancial Professionals  369

This course provides the tools for decision-makers, elected officials, senior managers – other than accountants and auditors – who want to have an overview understanding of government financial reporting. Participants discuss budgets, financial statements and the audit, and at the 30,000 foot level what each of those is saying (or not saying!).

Participants should bring questions about terms or concepts they have encountered as part of their interaction with county and government financial reporting. The discussion reviews terms and definitions used with government financial reporting and strategies on how to read financial statements and auditor reports to identify critical information and understand what it means … in plain English!

Instructor: Laura Lindal, CPA, is an experienced auditor and an instructor for the California CPA Education Foundation.

Make strategic planning mean something

Crafting and Implementing Effective Strategic Plans  123

Most counties and departments create strategic plans. Sometimes they provide clear guidance to decision makers and staff; sometimes they don’t. This course examines how to make the plan a living document … and have it mean something to those affected. Participants examine: 1) how to craft a strategic plan with the Board of Supervisors or other governing board; 2) engagement of the community and staff in the process; 3) tips to prepare an actionable plan; 4) communication of the plan; and 5) building a plan into action. Best practices and case examples are used to explore integration of the plan into agency operations and decision-making. Discussion highlights tips for structuring an effective strategic workshop.

Instructor: Angela Antenore, M.Ed. is an experienced strategic facilitator, agency board member and university instructor.

Create customer satisfaction in a county setting

Customer Service in the Public Sector: Balancing Satisfaction with Priorities  354

This policy level course helps managers and elected officials explore ways to create and enhance a customer service culture in their organization. Participants explore how to balance good customer service with county and state regulations and requirements. It focuses on what defines good customer service and a service culture. Lively small and large group discussions provide tools to assess the current environment, gaps to be more service oriented, and how to get there. Participants examine the structure and process to support and recognize effective customer service, even in difficult regulatory situations. Barriers to good customer service are examined along with service and performance measurements.

EMERGING ISSUES

Exploring trends in policy issues
These seminars provide county decision-makers an opportunity to explore emerging trends with colleagues and experts. Brief presentations examine facets of the issue and allow opportunities for discussion on resources, capacity and authority available for counties to work toward solutions.

Solutions to increase affordability and availability of housing

Emerging Issues: The Crisis of Housing 406

California has reached a crisis point regarding both the availability of housing and its affordability. The average price of a home in the state is two-and-a-half times the average national price and rents are fifty percent higher than the rest of the country. According to the Legislative Analyst’s Office, major changes to local government land use authority, local finance, CEQA, and other major polices are likely necessary to address California’s high housing costs and limited availability. This course will focus on statewide and locally-driven policy solutions emerging through legislation and local policy changes, as well as case studies.

The context of county-state revenue relationships

Financing California Counties: The History 151

Have you found yourself overwhelmed trying to understand the county revenue sources and funding streams? And how we ended up with this complex system? This course provides an in-depth examination of the history of county revenue sources and how they have evolved over decades. Exploring the context of county funding decisions by the legislature and administration over the last 40 years is critical in understanding the current state-county funding and revenue relationships. The class examines the history and consequences of major elements in county revenues including: Proposition 13, 172, 1A, Vehicle License Fees, Realignment, ERAF, property tax allocations, current year State budget and more.

Instructor: Diane Cummins is Special Advisor to the Governor on State and Local Realignment.

Intergenerational Leadership 129

For the first time in history we find ourselves working with people from five generations. In today’s workplace we have to understand, communicate and interact with people from different eras, different values and habits, and fundamentally different ideas about life! This class focuses on understanding and practicing how to integrate deeper generational insights into practice. Participants do self-assessments of their eras and their own values. They profile their work environments to discern the complexity of the generational mix. Most importantly they learn a unique set of skills and processes to employ when encountering people whose values, habits and business practices may be at odds with their own. This workshop provides participants skills to blend generations to get the best from everyone.

Instructor: Larry Liberty, Ph.D. works with Fortune 500 companies and teaches in MBA programs across the globe, and is author of The Maturity Factor – Solving the Mystery of Great Leadership.

Create better value for – and relationships with – IT customers

IT Performance Metrics and Customer Value 342

County governments create value for citizens through the services they deliver. Doing so effectively and efficiently not only requires a keen understanding of how government service quality is impacted by the internal systems and processes which enable them, but also requires establishing metrics around these systems and processes in order to measure performance - after all if it isn’t measured, it isn’t managed. This facilitative course is designed to help county IT professionals understand the metrics that matter. By taking a customer-centric approach, participants will understand how to establish metrics across IT services, applications, and infrastructure, optimize performance over time, and communicate the benefits realized to the rest of the organization through a series of interactive discussions, group activities, and individual exercises.

How to figure out where you are going

IT Define an IT Strategy and Roadmap 339

Most IT departments struggle to develop a strategic IT plan that aligns with their organization, is understood outside of IT, and demonstrates ROI and the value that IT provides. This course will look at a visual approach to developing an IT strategy. One based on mandate and organizational context; that will ensure IT meets the rapidly changing needs of the organization and articulated in terms the organization understands.

How is IT service delivery positioned in your county? On the mark?

IT Service Management 341

IT exists in large measure to support other parts of the county; your internal customers. However, many IT departments do not approach IT delivery through a customer-service lens. Instead they focus on maintaining performance levels and reacting to requests. As cloud services proliferate, county leaders have more options available to
procure IT services. By taking an "order taker" posture, IT functions risk being outsourced altogether, compromising the unique value they can provide the organization. This course will enable county IT leaders to properly position themselves against these external options, by helping them identify their current level of IT customer-service sophistication, and instilling the knowledge, tools, and templates required to institute a proactive IT service management operation.

Why change efforts fail - and how to remove those barriers

Leadership & Change: Practices to Move People and Organizations

County officials and managers discuss the need for change in their organizations, yet struggle when change is difficult to accomplish within the depths of the organization. This course helps participants move past technical solutions to the practices for approaching adaptive challenges. Discussion highlights why some changes happen relatively quickly while others are stymied. Participants explore change from the perspective of those whom the change affects. Practical discussions focus on design of a change process; practices to diagnose, interpret and select interventions; barriers; and creating an environment in which people can expand their capacity to address adaptive change.

Instructor: Bill Chiat, Dean of CSAC Institute. For the last 35 years he has worked with hundreds of local agencies in crafting change.

Leading with Emotional Intelligence

What characteristics and practices distinguish great from good performers? What evidence based practices should be part of your daily routine to be a high performer? We will answer these questions from a 30 year data base and research of top performers? As we dive into the four areas of Emotional Intelligence (EI): 1) Understanding Yourself, 2) Managing Yourself, 3) Understanding Others and 4) Managing Others. You will take an assessment to determine your EI strengths. Hands on tools to enhance your EI will be explored.

Emotional Intelligence is a prime factor to one’s success when compared to Intelligence Quotient (IQ) and technical expertise. Business simulations, practice sessions, videos and group discussions will help participants enjoy, engage and learn more.

Instructor: Relly Nadler, Psy.D. is founder of True North Leadership, Inc., and author of Leading with Emotional Intelligence.

Local Governance in California: All Those Agencies! 150

California has a complex system of providing services through local governments. This course provides an overview of local government structure and responsibilities in California. You’ll learn the basics of all the local agencies and how they interrelate with county responsibilities. A brief history of California governance is followed by a review of the roles and responsibilities of the state, cities, counties, special districts and an alphabet soup of other local agencies. Discussion highlights the authority and responsibilities of the county as it relates to other agencies through a county case study on the interrelationships of all these local agencies.

Instructor: Bill Chiat, CSAC Institute Dean, former executive director of the California Association of Local Agency Formation Commissions and experienced executive in county, district and city governments.

Acheive outcomes in everyone’s best interest

Negotiations and Collaboration in Complex Environments 356

Negotiation is “a back and forth interaction among two or more people who wish to arrive at a mutually agreeable outcome where the parties have some interests in common and some that are opposed.” This definition from Fisher and Ury’s book Getting to Yes describes most “Public Good” negotiations. Solution-Based Negotiation teaches participants how to achieve the most beneficial outcomes for all negotiating parties while ensuring the outcomes are in the best interest of the public while the negotiating parties relationships end positively. This course covers the most current tried and tested behaviors in the field of negotiation and gives you tools that will be immediately useful in your work. Best of all, it can help you serve your constituents in the best possible ways without needless compromise.

Intentionality: Tying together activities to build performance

Purpose, Outcomes and Intentionality: Make Things Happen in Your Agency 113

NEW! We all have those nagging problems that lurk in the background, the ones you know you should tackle but never seem to have time. They are often the big hairy ugly ones we really don’t want to tackle. Or worse, we’ve made them “unsolvable”, working around rather than tackling them. This class provides a much needed break to really examine these issues. Participants take a step back to identify the roots of the issues, re-frame them as necessary, and then identify alternative strategies, reducing roadblocks, sequencing steps, identifying stakeholders and developing flexibility in getting to your goals. The class is about creating a mind-set for tackling problems and knowing whether you’re making progress or not. Be prepared to be challenged, and encouraged to think in new ways.

Improve customer and employee satisfaction ... and reduce costs

Service Excellence through Process Improvement: Championship 374

When counties look to create efficiencies, process improvement is a valuable tool. It can help maximize value, reduce wasteful activities, and improve service delivery. Hear case examples of how Ventura County has significantly improved service quality and performance while reducing costs. This hands-on course engages managers in techniques to identify current service delivery processes and find opportunities to improve. Tools are shared for both identifying process problems and engaging the process participants in crafting solutions. Participants apply the tools in simulations and explore how to use them in a process improvement opportunity at home. Objectives include: 1) identify what a process is and define process improvement; 2) understand and apply the plan-do-check-act cycle; 3) know how and when to apply various improvement tools; and 4) create an improvement plan for a selected process.

Stories connect people

Storytelling and Other Leadership Practices in the Art of Persuasion 378

Persuasion is interpreted as an attempt to evoke a voluntary change in the attitude or behavior of another person. Effective leaders are able to tell stories that speak to others and markedly influence their behaviors. Through hands-on activities the class explores elements of story-telling and how to construct and use stories in the practice of leadership. Participants examine case studies and experiences to develop their own stories. Other practices examined include metaphors, humor, reciprocation, contrast and conformity. These tools are placed in the context of enhancing the transaction between leader and follower and authentically hearing the needs of listeners.

Instructor: Bill Chiat is Dean of the CSAC Institute and has been a practitioner of leadership (and storytelling) for 35 years.

Build collaborative relationships with county contractors and CBOs

Subrecipient Monitoring 397

In California, state agencies receive federal grants for social services and make subawards to California counties. The counties, in turn, frequently make subawards to nonprofit organizations that actually provide the services. The Uniform Grant Guidance requires counties to actively monitor their subrecipients. Further, counties must review the subrecipient monitoring activities and report on them. If the auditee has not complied with the requirements, there could be significant impacts: financially; ability to provide services; grantee’s reputation; or access to future grants. This course identifies the federal requirements for subrecipient monitoring; how to determine the Single Audit requirements for subrecipient monitoring; strategies to build collaborative relationships with subrecipients through monitoring; and the recommended steps to conduct the monitoring. Eligible for CPE credits for CPAs and MCLE credits for members of the bar.

Instructor: Sefton Boyars, CPA, CGFM, CFS, is a former federal auditor general and an instructor for the California CPA Education Foundation.

Innovations in addressing youth homelessness

Supporting Homeless and At-Risk Youth – Collaborative Approaches 321

Homelessness is a pervasive and complex problem impacting all California communities. As counties across the state are implementing innovative and collaborative solutions to address this issue, they are finding that homeless and at-risk youth are a unique subset of the homeless population and therefore need equally unique approaches and interventions. This class will engage participants in a discussion on many facets of youth homelessness including root causes and identification of homeless youth, school/county partnerships, foster youth, truancy and economic development. Attendees will hear from experts in the field along with lessons learned from counties implementing promising and successful programs.

When Bad Things Happen: Managing the Media in Crises and Emergencies 357

Counties are prepared for natural disasters … but what about federal and state investigations, embezzlement of funds, arrest or death of an official, program failure, scandals uncovered and other unexpected situations. This course focuses on the communications principles required to respond to organizational crises. Case studies are analyzed to identify successful and unsuccessful responses. A set of steps are presented to prepare a communications response, including role assignments, strategies and tactics which target affected audiences, key messages which tell the county’s story, and delivering the response via the media and other communications vehicles. Techniques are shared for response options, sample messages, understanding media perspective and how to avoid common pitfalls and missteps.
