Background and Legislation’s intent

- SB 1338 signed into law by Governor September 2022
- Eligible population = those with **untreated schizophrenia spectrum and psychotic disorders**
  - Estimated 7,000-12,000 in California
- CARE is intended to be a **new process**, that can be supported and served by **existing programs**
- Intended as a compassionate, **upstream diversion** to prevent more restrictive conservatorships or incarceration
The CARE process involves…

The respondent, as well as:

- Petitioner
- County Behavioral Health Department
- Civil court
- Legal Aid or Public Defender
- Voluntary Supporter, if desired
- Comprehensive CARE Plan
Why Courts?

• Criminal courts are often in the crosshairs of the lives of those suffering from severe, decompensated mental illness
  • By going upstream with a civil court process, CARE aims to serve individuals before criminal court or conservatorship

• CARE is a vehicle for collaboration and coordination, not compliance
  • County outreach and engagement begins before court engagement

• The court can deepen its engagement and oversight if:
  • The government entities can’t implement an appropriate, person-centered plan; or
  • Client cannot participate
Implementation timeline

- **October 2023**: Cohort 1 counties
  - Glenn, Orange, Riverside, San Diego, Stanislaus, Tuolumne, and San Francisco
  - LA is accelerating implementation to December 2023

- **December 2024**: All 58 counties
  - Unless county granted additional time by DHCS
Funding

- **$64.7m** to counties in current year in start up and implementation funds. See: https://www.dhcs.ca.gov/provgovpart/Documents/BHIN-22-059-General-Uses-of-the-CARE-Act-Startup-Funding.pdf

  - The Administration continues to work with Judicial Council and county partners to estimate costs associated with this new court process, including administrative costs.

Recent facility, residential, and housing investments most likely to serve CARE respondents

- **$1.5b** in Behavioral Health Bridge housing. See: https://bridgehousing.buildingcalhhs.com/
- **$2.2b** for Behavioral Health Continuum Infrastructure Program. See: https://www.infrastructure.buildingcalhhs.com/
