

**CHAPTER 21. MEDICAL MARIJUANA BUSINESS LICENSE: REGULATION OF POSSESSION,
CONSUMPTION, DISTRIBUTION, TRANSPORTATION, CULTIVATION AND GROWING**

6-21-1000 COMPLIANCE WITH LAWS, PURPOSE AND INTENT:

(a) The possession, consumption, distribution, transportation, cultivation and growing of medical marijuana in the unincorporated areas of the County of Tulare must comply with federal law, state law and local ordinances and regulations, including County ordinances and regulations. Upon such compliance, this Chapter shall apply and shall require continued compliance. It is the purpose and intent of this chapter to promote the health, safety, morals, and general welfare of the residents and businesses within Tulare County by regulating the possession, consumption, distribution, transportation, cultivation, criteria and growing of medical marijuana.

(b) Federal law currently does not recognize a medical use of marijuana.

(c) The Board of Supervisors, in adopting this section, takes legislative notice of the existence and content of the studies concerning potential adverse effects of medical marijuana in other counties and cities. The Board of Supervisors relies upon these studies, believes them to be true, and finds that certain potential adverse effects can be associated with medical marijuana, including: increases in crimes, specifically theft of marijuana from individual patients, caregivers or places of distribution of medical marijuana, and the sale of medical marijuana for non-medical purposes; and a negative effect on the general quality of life for areas surrounding such facilities that distribute medical marijuana.

(d) In 1996, the voters of the State of California approved Proposition 215, "the Compassionate Use Act" which was intended to permit cultivation and possession of medical marijuana by a single patient, or the patient's caregiver, for the patient's personal use, and to create a limited defense to the crimes of possessing or cultivating marijuana; and

(e) In 2004, the State Legislature enacted Senate Bill 420, "the Medical Marijuana Program Act," to clarify the scope of the Compassionate Use Act and to provide qualifying patients and primary caregivers who collectively or cooperatively cultivate marijuana for medical purposes with a limited defense to the crimes of possession for sale, transportation or furnishing marijuana, maintaining a location for unlawfully selling, giving away, or using controlled substances, managing a location for the storage or distribution of any controlled substance for sale, and the laws declaring the use of property for these purposes a nuisance; and

(f) The Medical Marijuana Program Act defines a "primary caregiver" as an individual who is designated by a qualified patient or by a person with an identification card, and who has consistently assumed responsibility for the housing, health, or safety of that patient or person; and

(g) The Medical Marijuana Program Act allows cities and counties to adopt and enforce rules

consistent with the Medical Marijuana Program Act; and

(h) In August 2008, the California Attorney General issued guidelines that clarify the state's laws governing medical marijuana, and provide guidelines for patients and law enforcement to ensure that medical marijuana is not diverted to illicit markets; and

(i) This Chapter is enacted pursuant to the Compassionate Use Act (Health and Safety Code §11362.5); the Medical Marijuana Program Act (Health and Safety Code §11362.7 et seq.); the Guidelines issued by the California Attorney General pursuant to Health and Safety Code §11362.81; as amended and herein incorporated by reference; and the County's constitutional police power to protect the health, safety and welfare of the residents of the County of Tulare; and

(j) Since the sale of medical marijuana for profit is unlawful, it is necessary to place restrictions on the exterior appearance of medical marijuana collectives or cooperatives in order to prevent the misunderstanding that collectives or cooperatives are places where marijuana may be purchased; and

(k) Since marijuana is a controlled substance, it is necessary to place restrictions limiting the cultivation through the establishment of development criteria that will secure visibility, secure access, limit potential unauthorized removal, and to prevent intrusion of the consumption of medical marijuana by limiting smoke and other airborne odors related to marijuana from intruding on adjacent residents, businesses, properties, or public areas; and

(l) It is the purpose and intent of this chapter to adopt and enforce rules consistent with the Compassionate Use Act, the Medical Marijuana Program Act, and the Guidelines issued by the California Attorney General, as amended, which will provide for the health, safety and welfare of the public by regulating the collective cultivation and possession of medical marijuana with the unincorporated area of the County of Tulare, consistent with state and federal law; and

(m) Nothing in this Chapter is intended to authorize, legalize or license the establishment, operation or maintenance of any facility distributing medical marijuana, building or use which violates any other county ordinance or any statute of the State of California, including those relating to public nuisances or unlawful use of marijuana.
