Challenging times for California property owners: Navigating the Property Insurance Crisis
About United Policyholders

• In business since 1991 as a consumer advocacy non-profit that helps people with insurance matters

• Three main programs, various initiatives (WRAP, RISC)

• Trustworthy, plain language info

• Working hard to help Californians in wildfire-prone areas keep their homes insured during the current crisis

• UP Roadmap to Recovery program provides free guidance on insurance, replacing, rebuilding and navigating the recovery process after a partial or total catastrophic loss

The data collected will help us help you.

THANK YOU!!!
The Lingo

Dropped/Nonrenewed: Your insurance company no longer wants to insure your home when the current contract expires (usually a one year term).

Cancelled: Your insurance company can cancel your insurance if you do not pay your insurance bills or your home is in very poor condition.

Difference in Conditions (“DIC”) Insurance that can fill gaps in a CA Fair Plan policy.

Protection Class: 10 categories insurers use to evaluate your city/town. Considers fire department, water supply, alarm/communication systems.

Risk Score: A number assigned to your home’s wildfire risk level by a modeling system produced by a private company, generally not an insurer.
What are the current rules?

• Insurer must give 75 days notice before non-renewing

• Depending on zip code, there are currently few to no options other than the CA Fair Plan

• CA Fair Plan must “take all comers” (w/a few exceptions) and give a discount of up to 15% to those who meet Safer From Wildfires standard

• Insurer must tell you your Risk Score, provide an appeal

• Insurance pricing must be prior approved, not excessive or unfairly discriminatory, some mitigation discounts are available, others pending

• “Sustainable Insurance Strategy” is in process not implemented. Insurers, DOI and some stakeholders are at loggerheads.
Dropped by your Insurer?

- Start shopping right away
- Talk to neighbors and friends, shop on your own AND get help from a professional agent/broker
- Use UP’s resources https://tinyurl.com/2p8r2k27
- Ask good questions, keep good notes
- If the Fair Plan is your only option, aim for add-ons if affordable
FAIR Plan coverage is very basic – can be enhanced

FAIR Plan

Dwelling Policy

Fire
Internal
Explosion
Windstorm

(Options if added)

- Optional Increase **Code Upgrade Coverage** (up to 10%)
- Optional - add 5% for **Debris Removal** coverage
- Optional increase of **Other Structures** coverage
Home Insurance Check UP
Questions to ask an ins. agent

- Will this policy cover the **cost of rebuilding** my home to its pre-loss condition?
- What causes of loss are **not covered**?
- Will my insurance cover the cost to upgrade electrical, plumbing and other **building codes upgrades** if I have to make repairs or rebuild my home?
- For how long will my **temporary rent and related expenses** be covered while my home is being repaired or rebuilt after a loss?
- What items are subject to **limits or exclusions** and for which of these limits or exclusions should I consider adding coverage?
- What are my options for insuring my **home-based business** property and operations?
- What **discounts** do you offer and how do I qualify for them?
- How much can I save if I increase my **deductible**? Flat or %?
Tips to save money:

• Seek out a *pro-active* insurance agent/broker
• Do as much mitigation as you can
• Raise your deductible
  – While shopping ask for a quote with different levels of deductible: $1,000, $2,500, $5,000
  – A higher deductible will reduce your premium and you will be less likely to file a small claim
• Reduce/eliminate buckets of coverage you can live without (High dollar limits on contents, Other Structures)
Risk reduction is imperative

Improve Your Home’s Chances of Surviving a Wildfire

- Have a Class A fire rated roof
- Install screens to keep embers out
- Gutters should be kept clear of leaves and needles
- Clear plants so there’s 5 feet of space around your home
- Remove all combustible materials from under and near decks
- Prune branches near the home
- If wood fencing touches your home, replace at least 5 ft. of it with metal
- To get help with the above, visit the WRAP Resource Center: [www.uphelp.org/wrap](http://www.uphelp.org/wrap)
Despite limited options and high prices, be prepared, not scared:

- Get educated on your options
- Seek out a pro-active, consumer-oriented agent/broker
- Avoid underinsuring your dwelling: Aim to insure for replacement value, including coverage for building code upgrades
- Compare what premiums will be with various deductibles
- Reduce/eliminate non-essential coverages where feasible
- Create a home inventory, store it safely
- Help your community be Firewise/Fire Safe
- Mitigate! Take steps to “harden” your home and create defensible space - [www.uphelp.org/wrap](http://www.uphelp.org/wrap)
Yes it’s worth it…
(even if your lender isn’t requiring)

• Insurance money -- not charitable or government aid -- is the #1 source of money that helps people rebuild and recover after a disaster.

• FEMA money is needs-based and the maximum grant is $41k. Average ~ $5k.

• SBA loans are low interest but must be repaid.

• Charitable aid generally covers basic needs – not the cost of rebuilding a home.
