AB/SB 158 (Budget)
HHAP 7 Provisions – Support

The California State Association of Counties, the League of California Cities, and the Bring California Home Coalition **urge your support** for the Homeless Housing, Assistance and Prevention (HHAP) Program provisions contained in AB/SB 158. This language would allow for rapid distribution of Round 7 funding.

- **Services and Housing at Risk** – Without this language, HHAP 7 funding will be delayed and local homeless service and housing efforts will be disrupted, reversing the progress our state is now seeing.
- **Target Date Needed** – The September 1, 2026 disbursement date is critically needed to get funding out the door as quickly as possible. Without a reliable HHAP Round 7 disbursement date, many local jurisdictions will need to ramp down HHAP-funded services.
- **Work Must Begin Now** – This language allows the California Department of Housing and Community Development (HCD) to begin the significant work required to administer Round 7, work that must start as soon as possible.

The HHAP program is successfully reducing homelessness in our state. Urgent action is needed now to maintain this progress and ensure there are no gaps in funding.

Please support the HHAP provisions of AB/SB 158.
