Comments & Discussion

CSAC's DISCUSSION Qs:

- Does your county want to keep your current structure or is your county interested in changing either the county makeup of the PSA or the administrative entity?
- What recommendations do you have, and resources would your county need to help the current structure, or a locally preferred new structure more effectively administer AAA services?
- What specific AAA services in your community need more resources?
- What recommendations does your county have for establishing or strengthening a central access point for aging and disability services?
- Should there be an opportunity or process established for County Boards to affirm or choose to modify their local aging services structure every few years?
